### SHORT DESCRIPTION OF THE PROJECT:

The goal of SEACURE is an integrated system of systems of unmanned platforms to perform joint anti-submarine and seabed warfare operations to protect critical maritime infrastructure.

The project develops and demonstrates at sea an integrated system of systems of unmanned platforms to perform joint anti-submarine and seabed warfare operations to protect critical maritime infrastructure. The overall concept has a very strong focus on the common *Command, Control, Communication, Computers and Intelligence (C4I)* approach between participants and their related national ministries of defence. It includes a concept of engagement against enemy intruders by using anti-torpedo torpedoes.
